GRIPPY MAT

Make the switch to the mat that sticks!®

Rubber-backed mats can really trip you up. They constantly shift, bunch and flip over, creating trip hazards. They require someone's time to put them back into place. They never seem to provide enough coverage. And dealing with slip-and-fall claims can be one big, expensive headache. Sure, rubber-backed mats have been the norm for a while, but finally, there's a better way.

PIG GRIPPY MAT	vs	RUBBER-BACKED MATS
✔ STAYS IN PLACE		✖ SHIFT AROUND
✔ ALWAYS LAYS FLAT		✖ BUNCH & RIPPLE
✔ HIGHLY ABSORBENT		✖ LIQUID PUDDLES ON TOP
✔ EASY TO CLEAN		✖ LAUNDERING FEES
✔ CONTINUOUS COVERAGE		✖ GAPS & OVERLAPS

PIG Adhesive-Backed Grippy Mat is 100% guaranteed to perform! With so many advantages over rubber-backed mats, the only question is: *Where will you stick it?*

Sticky side down. Smooth it out. It's that easy!

Applying Grippy Mat to your floors is not hard work. You just roll it out, stick it down and smooth it into place. Our exclusive adhesive backing keeps Grippy Mat right where you place it, then peels up easily without residue. Precut mats go down in seconds, and cut-to-length rolls only take a minute or two to apply. Don't miss our handy tools on page 18 for long runs and special applications!

When we say Ultra-Duty Grippy Mat is made for high-traffic areas, we're talking upwards of 30,000 people per week. This number can help you gauge which Grippy Mat you need at your facility. In addition to all that foot traffic, it's also built to hold up under heavy wheel traffic from dollies, carts and even forklifts.

Grippy Mat vs. carpet mats

Floor mats have finally evolved: Grippy Mat is thin, durable, absorbent and never a trip hazard.

Digital printing on a smooth surface produces sharper graphics than printing on carpet fibers.

Adhesive backing keeps Grippy Mat right where you put it; no shifting or bunching like rubber-backed mats.

SAFETY BORDER GRIPPY MAT

Designate pathways and provide traction to double-down on safety.

Tapes and paints might be easy to see but they do nothing to create a safer floor surface. Safety Border Grippy Mat is easy to apply, and the ONLY floor safety solution that combines a high-traction walking surface with a hi-viz safety edge pattern. Contrasting yellow and black markings are designed to meet ANSI standards and help you comply with OSHA 1910.22 (walking surfaces standard). Durable printed surface withstands industrial wear and tear, even forklift traffic.

New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces and never on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable and may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes.
All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floors or other surfaces.

For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage and should always be replaced no later than 6 months after installation.

ANTI-MICROBIAL

We designed Grippy Mat to thrive in wet conditions, so don't be shy when it's time to clean your floors. Simply mop right over them and go about your day. Other brands can delaminate when they get wet, causing the adhesive to ooze and lose its stick — but Grippy is unfazed by moisture! The high-traction surface stands up to daily cleaning, and no matter how hard you scrub, the antimicrobial properties are permanently infused to keep working as long as your mat is in use.
